**HORTON LAW : EXACT FORMULAS AND ENTROPY RATES**

E.V.Chunikhina<sup>1</sup>

<sup>1</sup>*EECS, Oregon State University, Corvallis, USA*

*Key words* Horton-Strahler indexing, entropy rate.

In this work we derive the closed form formula for the number of binary trees with particular Horton-Strahler numbers. We use these formulas to study the binary trees satisfying Horton law and obtain corresponding entropy rates.
